Software Engineering Intern (Summer 2027) · Flutter · Full-Stack · AI/ML Integration

adityalohar00030@gmail.com | +91 86250 41969 | Jalgaon, Maharashtra

PROFESSIONAL SUMMARY

Final-year B.Tech Computer Engineering student (DBATU, 2027) and Flutter/full-stack developer (React, Next.js, Node.js) specializing in AI-integrated applications (Gemini API, Claude API). Ships production software under real constraints — an 11-feature AI farming app competing at the FAR AWAY 2026 International Hackathon, and a full SSR streaming platform with real-time search and secure sessions. Ranked Top 800 of 31,000+ entrants at the Meta PyTorch OpenEnv Hackathon.

TECHNICAL SKILLS

Languages: Java, Dart, JavaScript, TypeScript, Python

Mobile: Flutter 3.x, Riverpod, Firebase, SQLite

Web & Backend: React, Next.js, Node.js, Express.js, REST APIs, JWT, SSR

Databases: MySQL (SQL), MongoDB & Firestore (NoSQL)

Tools & DevOps: Git, GitHub Actions (CI/CD), Docker, Vercel, Postman, Android Studio

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

PROJECTS

Krushmi Mitra — AI-Powered Farmer Assistance App

Stack: Flutter · Firebase · Riverpod · SQLite · Gemini API · Claude API

- Engineered an 11-feature production app — AI Crop Doctor (Gemini Vision), trilingual chatbot (Hindi/Marathi/English), live mandi prices, soil advisor, govt. scheme checker, crop calendar, and farm diary — giving farmers a single point of access to diagnostics, pricing, and scheme information; selected to compete at the FAR AWAY 2026 International Hackathon.
- Architected an offline-first sync layer (Firestore + SQLite) and a 5-key Gemini load balancer with Claude API fallback, keeping AI inference available for low-connectivity rural users and eliminating single-provider rate-limit failures.

CrazyXAni — Full-Stack Anime Streaming Platform

Stack: Next.js · React · Node.js · MongoDB · JWT

- Shipped an SSR streaming platform aggregating AniList API data, with real-time search, JWT-secured sessions, and MongoDB-backed watchlists; server-side rendering cut initial load times and improved SEO discoverability.

Portfolio Website — Interactive 3D Showcase

Stack: React · Vite · TypeScript · Three.js · GSAP · Tailwind CSS

- Designed and deployed an interactive 3D portfolio with WebGL scenes (Three.js) and GSAP ScrollTrigger animations, presenting project work in an immersive, scroll-driven format; deployed on Vercel.

EXPERIENCE

SAP Intern — Supreme Industries Ltd.

Jalgaon, Maharashtra

- Supported daily SAP data operations and maintained structured ERP records across business modules, ensuring accuracy and compliance with operational standards.

ACHIEVEMENTS

- Top 800 of 31,000+ entrants, Meta PyTorch OpenEnv Hackathon (Scaler) — advanced to the Campus Finale in Bengaluru as Team AI_Vengers.
- Competing at the FAR AWAY 2026 International Hackathon with Krushi Mitra (Team AI_Vengers); Round 1 MVP submitted.
- Participant, TECH-CARVAAN 2026 AI Buildathon — Entrepreneurship Awareness Programme, MSME Technology Centre, Govt. of India.

EDUCATION

B.Tech, Computer Engineering — KBSCOE&T (NMKC), Jalgaon · DBATU, Lonere

2023 – 2027
